

## Conference Workshops

The following two-day workshops are open to all:

***An Embodied Approach to the Embryological Foundations of Movement***  
with **Bonnie Bainbridge Cohen** on May 30th - 31st 2011

In exploring embryological developmental processes we discover the primal roots of our structure, perception, responsiveness and presence. This workshop will be an experiential journey through our embryological development using movement, touch and dialogue. This will provide a doorway into finding our relationship with gravity, being and doing, the development of the front, middle and back bodies, a recognition of our uniqueness and shared commonality, the development of a calm, quiet and contained central axis, and fluid/membrane balance through all our cells and tissues.

**Venue:** Windsor Suite, Columbia Hotel, 95-99 Lancaster Gate, London W2 3NS  
(Nearest tube: Lancaster Gate)

***The Body Bears the Burden: Mind, Brain and Body in the Transformation of Trauma***

with **Peter Levine** on June 1st - 2nd 2011

This workshop will explore how unresolved (traumatic) stress can be the underlying force that drives numerous clinical conditions. Participants will have the opportunity to learn skills and perceptions necessary to resolve traumatic symptoms through direct work with the body. These tools can be applied to various body-oriented psychological and medical practices.

**Venue:** Windsor Suite, Columbia Hotel, 95-99 Lancaster Gate, London W2 3NS  
(Nearest tube: Lancaster Gate)

***Energy Medicine, Frequency Medicine and Resonance: an Update on the Miracle of Resonant Interactions and Quantum Principles***

with **Dr. James Oschman** on June 4th - 5th 2011

This workshop will provide a deeper appreciation of the roles of quantum principles in clinical practice. There will be an emphasis on the great sensitivity of living matter that allows for extremely subtle yet profoundly therapeutic interactions. In particular we will look below the miracle of resonant interactions to see how life and healing emerge from the energy and information residing in space. The aim is to increase your effectiveness as a therapist and to enhance your ability to communicate your work to patients and the general public seeking better outcomes.

**Venue:** Skylight Centre, 49 Corsica Street, London N5 1JT  
(Nearest tube: Highbury and Islington)

**Cost of workshops:** Each workshop costs £195 if payment is received by March 31st 2011, or £225 if payment is received after March 31st 2011. This includes teas and coffees during breaks (lunches are not provided).
